

2018 Ward Planning Meeting			
WARD 3			
ISSUES/CONCERNS		POSITIVE COMMENTS	
ISSUES/CONCERNS		KEEP/CHANGE	
We need updates on Pillsbury Mills. Since re-mediation, what else has happened? What is the status?		Great response we get when we call.	
Alderwoman can't do it all. All these departments work out and about. Have them report on issues of dilapidated structures, police report on lights that are out, etc.? Look out to all aspects of city and not just our own department.		Right size to raise a family – not too big nor too small	
Including alleyways in reporting problems and issues.		Alderwoman is very responsive when you have an issue – gets it fixed.	
Trees growing in the fence line. Does city have a policy on trees growing in fenceline and do they do anything? Jurisdiction issues? Abandoned properties? Eyesore and can people fix them?		Alderwoman – the North Grand Avenue Improvement really appreciates the help she has given and guidance. It encompasses three different wards and it can do many great things.	
The trees that grow in power lines? Who is responsible? Who needs to do what?		Lots to do – all around the city. Not just downtown or Westside. All over things are happening.	
A person complained to CWLP about dark/street light? However, there were trees that were blocking the flow of the light. Who is responsible and how do we address it – 2600 block of Manor		SMTD Improvements	
Garbage Haulers need to cooperate and notify city about mattresses that are left/dumped and don't ignore them.			
Questions/updates on Pillsbury			
Homes in the City limits but not in the City. We need them annexed – what can we do about them?			

<p>Fire keeps a list of abandoned properties. We can make that more public with the department so we are all aware.</p>		
<p>Green Tree and Laurel – all the trees are overgrown and grass. Property in disrepair (southwest corner)</p>		
<p>Does the resident maintain the easement? Or is it the city?</p>		
<p>Trees in Power lines at 710 S. 24th Street</p>		
<p>Has the city come up with a program to help residents get rid of old, dangerous trees.</p>		
<p>41 Glen Aire – raising up the sidewalk (an old tree). Needs to be fixed.</p>		
<p>Kudos to Alderwoman and NPO are great for Erniebankhead. Every NPO they have had is great.</p>		
<p>Chronic truancy – what can we do or is it a flag to police or teachers or find out why s/he is missing school?</p>
