

2018 Ward Planning Meeting			
WARD 7			
ISSUES/CONCERNS	POSITIVE COMMENTS	KEEP/CHANGE	
Chatham Road – talked with Director Mahoney twice. He’s very nice. Leland Grove doesn’t have enough money. I drive down a lot. The patching is disturbing. Just do our part.	Racoons ate the transformer– great response by PW	Quality Medical Care (keep)	
Concern is the mall. No one is going there to shop. Doesn’t want it to go away and concerned it will be a big hole. It is happening across all over the state and doesn’t want it to happen here.	It doesn’t take long to get from one place to another	Warmth and courtesy (keep)	
Appreciates the bicycle trails but would be better if they are connected	Downtown library has been updated and been very nice and fun.	Friendly atmosphere (keep)	
If you are coming out of Sherwood on Wabash at light, people are running the light. All of the lights are an issue.	Tourism is now open – 7 days a week. Governor’s Mansion	Dependable Police & Fire (keep)	
I’m concerned about sprawl. We are stretching all the services and it is an issue. The strip malls keep going out west. But we need to redevelop what we have instead of taking over good farmland.	Police Department Record’s Department – very quick response	Government responsiveness (keep)	
Personal concern. Kids at Butler and the parking is awful. People honk at you and are not accommodating.	Handicap Accessible sidewalks	Park Systems (keep)	
Another concern with sprawl. Empty strip malls that don’t have anybody in them. They keep going up though. Over capacity on what we have.	Police officers have been very kind in all aspects of interactions when they met.	My electric and water bill (keep)	
Running red lights – issue everywhere. Start enforcing it and using the money for roads.	Great leaf and branch pickup	My electric and water bill (change)	
Town and Country Shopping Center – anything going in it?	Lengthy yellow turn signals	Garbage Truck – don’t drive up and down every day. Can’t we do zones	

<p>Increase in enforcement on speeding. Officers aren't follow the laws so they should be role models – speeding, running red lights, stop talking on cell phones.</p>	<p>I like the park and bell tower and green areas to play in.</p>	<p>Giant truck to suck up the leaves</p>
<p>Pass a law about businesses and schools and landscaping because it goes in the streets and it clogs the sewers. Veterans and Golf Road down from Greenbriar – storm drain is completely blocked. Need help educating people on they can't do that.</p>	<p>Travel all over the state. Quality is a great place to live with our service.</p>	<p>Empty commercial buildings – make them full.</p>
<p>Off of Washington Park – oak trees are aging. A brand new car just got crushed. Many have dead limbs on city side of property. Someone will get injured.</p>		<p>Maintain and keep really good healthcare. Need to get hospitals back together</p>
<p>Shop-n-Save needs to replace that grocery store – even though it is in Jerome.</p>		<p>Right turn on red law? Is there more accidents since this is allowed? Public service announcement may help?</p>
<p>Struggling with people with cell phones without hands free device.</p>		<p>Make a decision on the Y-Block</p>
<p>Add a speed bump in Colony West because it is a cut through.</p>		<p>Amount of paper on the doors business puts. Stop putting it in the windows and help keep it beautiful.</p>
<p>Water issue – secure an additional source. Confusion if job is to supply a clean water source? Or is it to sell it to businesses? We either need it or we don't.</p>		<p>Stop running red lights.</p>
		<p>Water fountain along Wabash trail.</p>

		Lives off of Seven Pines. City needs to have occupancy permits for tenants because there is no tracking and no way to track the landlords. We took a picture of a bag of trash because it sat for two weeks. Landlord registration.
		What are the advantages and disadvantages to bringing Woodside Townsihp in or keeping out?
		Discussion of advantage and disadvantage of Capital Township.
