

2018 Ward Planning Meeting			
WARD 9 & 10			
ISSUES/CONCERNS	POSITIVE COMMENTS	KEEP/CHANGE	
Another way of disposal of Hazardous Waste	Oxford road improvement, by Harbour	Great leadership (keep)	
Cold weather. Water main breaks - help fix this issue and be proactive	Accessiblity and availability of Aldermen	CWLP (keep)	
Pressure checks on the line (Homes at Stone Creek and backs up to Meadowbrook). Not providing enough pressure.	4-way stop installed at Deerfield	Easy Traffic (keep)	
Northern entrance by Jefferson Park – Harbaour Lane and Churchill Road	Public Works – quick response on retention pond. Quick assessment and built up the walls and added sod.	Businesses (keep)	
Access (sidewalks stop and then a grassy area that leads to park. Difficult to get into the park). Get a sidewalk or crushed surface to get into the park.	Hazardous Waste material dropoff.	Lincoln Tourist Attractions (keep)	
Maintenance used to be done (cut) by residents. However no one is being responsible for the maintenance.	Thanks to the Fire Department – anytime she fell, there was a quick response and helped his wife. She has since passed away.	Street Fairs (keep)	
Concern about the beautification of the park because people are driving in the grass and driving on the grass. City didn't install a very good solution and needs to be more beautiful – like plantings.	CWLP outage – response for light outages good (street poles, etc.)	Bike Trails (keep)	
Neighborhood Watch – help with the burglaries in the area	Thank you for the leaf pickup this go around despite yucky weather	Open Government (keep)	
Pot holes on the bridge at the end of the Churchill	Outages and response time has been good.	Economic Development (keep)	
Cooperation with the City and the Park District about beautifying this park entrance. It is uninviting. Something that highlights it is the park entrance.	Communications that comes out on Friday – more beneficial if it was recieved on Monday then on a Friday.	Class 1 Fire Rating (keep)	

<p>Lot of water that goes through there and needs to be addressed. Major water issue. People park across the sidewalk. You only have one lane to get thru and are afraid kids are going to get hit. West end of parking lot – safety is needed or some better barriers.</p>	<p>Alley overlays and cleanup</p>	<p>Large Item Recycling (keep)</p>
<p>Concerns about taxes. City’s sales tax. Right after taxes were raised – raises were given. Police positions were filled. We buy stuff in the city. Is there enough tax money – what are we using it for. What are we missing?</p>	<p>Director of Library</p>	<p>Electronic Pickup (keep)</p>
<p>Concern with City Council that they increase taxes to fill the budget hole. What are our overall revenues? Repeated tax increases over a period of time. The answer is raise taxes. How can we be more frugal. Where is zero-based budgeting?</p>	<p>Thanks for the pseudo trail in Deerfield – Oak Park to YMCA</p>	<p>Taxes (change)</p>
<p>Efficiencies and frugality in budgeting – just go down to one page on CWLP billing and take off the color.</p>		<p>Reducing Budgets (change)</p>
<p>Is there any plan for Oak Park to add a trail. Residents of Deerfield can’t get to Y or Rotary without getting back on Iles.</p>		<p>Parking in Downtown (change)</p>
<p>Taxing ourselves in prosperity is going to drive people away. We need to grow ourselves into prosperity. Including School District. We are heading into a death spiral.</p>		<p>Balancing Budget (change)</p>
<p>When there is always a tax – I always vote no. There are ways to save money without harming any jobs. Just look at a better way at doing it. Then there are people who aren’t concerned by it.</p>		<p>Traffic Patterns (change)</p>
<p>Major concerns with pension problems and need to address. Not sure how to get out of it. It should be a two-tier system.</p>		<p>Tax exemptions (change)</p>
<p>Thanks to Aldermen because trees were out by the airport. We got a good response by the aldermen.</p>		<p>Less clutter</p>

<p>Get the street sweeper program going again because the leaves are clogging the inlets. It is causing issues.</p>		<p>Timing of Traffic Lights (change)</p>
<p>Traffic issues – Cobblestone is happy to see Archer get improved.</p>		<p>More preventative maintenance</p>
<p>Can't make headway on Qik N Ez and McDonalds - how to get in and get out without line striping. They all run into each other. It is private but it goes to a public road. Need to manage traffic better. Highest volume gas station but that means it is a ton of traffic.</p>		<p>Road quality improvement</p>
<p>Storm sewer issue – cleaned 5th Street to Sangamon. Patrol Officer was stuck. The resident cleaned it out but sewers need to be maintained. Clean out your own gutters/inlets.</p>		<p>Improved leaf pickup</p>
<p>Proud that people take care of their property. Not ok with the signs that are put out. Can people go out with Police and pull out the signs that are stuck around the city? They are on public property and need to be removed.</p>		<p>City equipment updates</p>
<p>When you call in the city and ask – they try and be responsive. Like Meadowbrook, they asked for flashing lights on 4-way stop there by Iles and did address it.</p>		<p>Increase downtown businesses on weekends (hours of operation)</p>
<p>2120 Mont Claire (address)– man hole needs to be fixed/repaired.</p>		<p>Artwork on Building Walls</p>
<p>Jefferson Park – suggestion to be fixed for beautification. Plantings could be placed there. A winterberry holly could be placed. Doesn't require maintenance trimming. Need a variety to get taken care.</p>		<p>Advertise the City Newsletter – market it more.</p>
<p>Does the City have an ordinance about placing signs/locations? Concerns with with digital signage.</p>		<p>More communications – how are we trying to reduce, spending</p>
