

# Smart Meters

PARKING MADE EASY

## PROS

- Familiar and easy to use
- Convenient payment options
- Clearly identifies and delineates paid parking spaces
- Payment available at the meter reducing walking distances to make payments.
- Remote programming available to alter rates and hours as needed for special events.
- Wireless data collection available for more accurate reporting of meter usage and errors.

## CONS

- Increased infrastructure footprint results in increase of required maintenance.
- Monthly cost per meter for wireless connectivity for processing credit cards.
